SUBJECT INDEX
Volume 10 Numbers 1–6

A

Abstracts, research, 83. 122, 246, 305
Adrenal crisis, fluid volume deficit in, 210
Arrhythmia, nursing diagnoses for automatic implantable cordioverter defibrillator patients, 188
Arsenic poisoning, chronic, multisystem failure in, 151
Autonomy, patient. *See Self-determination.*

B

Blood gases
  continuous S_vO_2 monitoring, research review, 202
Book reviews, 12, 114, 168, 249

C

Clinical Nurse Specialist
  case manager role, developing, 346
  documenting process and outcomes of consultation, 169
Competency, documentation, criteria for evaluating, 238
Complications
  in acute pancreatitis, 262
  diaphragm fatigue in ventilated patients, 13
  in thoracic aortic dissections, 271
Concept analysis
  to enhance clinical practice and research, 28
  quality of life, 223
Congenital heart disease
  total anomalous pulmonary venous connection, postoperative management, 140
Coronary care
  of confused elderly patients, 62
  pain management strategies in, 21
Cyclosporine, focus on immunosuppressive therapy, 68

D

Defibrillator, implantable
  automatic cardioverter, nursing diagnoses for, 188
  outcome criteria for patients with, 294
Diaphragm, fatigue in ventilated patients, 13
Dissection, aortic thoracic, preventing complications, 271

E

Echocardiography, transesophageal, application to postoperative cardiac surgery patient, 74
Education (critical care)
  internship program, evaluating, 176
  leadership course as recruitment/retention strategy, 42
  marketing critical care programs, 108
  self-learning in, 230
Elderly
  confused, ensuring safe CCU care, 62
  skin ulcers in surgical patients, 321
Endotracheal tube cuff care, developing standard for, 54
Ethics
  conflict resolution strategies: when ethical dilemmas evolve into conflict, 354
  differentiating ethical decisions from clinical standards, 280
  dilemmas with oncology patients, 84

F

Fluid volume deficit in adrenal crisis patient, 210
Forgotten sciences (editorial), 312

H

Heparin, -induced thrombocytopenia and thrombosis, 330

I

Immunosuppression
  cyclosporine for, 68
  OKT3 monoclonal antibody in cardiac transplant patients, 126
Infants
  postoperative management of total anomalous pulmonary venous connection, 140
sibling visitation in newborn intensive care, 218

L

Law, legal implications of standards of care, 96

M

Metabolism, response to injury in surgical/trauma patients, 4
Myocardial contusion, as index of suspicion for assessing blunt chest trauma, 133

N

Nifedipine, sublingual, controversy in delivery, 314

O

Oncology patients, ethical dilemmas, 84
Organ failure, hypermetabolic, in surgical/trauma patients, 4

P

Pain management, in coronary patients, 21
Pancreatitis, acute, preventing complications, 262
Poisoning, arsenic, multisystem failure in, 151
Practice standards
  for endotracheal tube cuff care, 54
  legal implications, 96
  standards or goals? (editorial), 51

Q

Quality of life, concept analysis, 223

R

Recruitment/retention
  critical care leadership course, 42
  management style and anticipated turnover, 35
Research nursing
  developing an effective nursing research committee, 289
  involving staff nurses, 103
Respiratory failure, pressure controlled inverse ratio ventilation in, 254

S

Self-determination (patient)
  increasing emphasis on (editorial), 123
  respecting patient's wishes, 160
Software reviews, 34
Standards. *See Practice standards.*
Surgery, metabolic response to injury, 4

T

Thrombocytopenia, heparin-induced, 330
Thrombosis, heparin-induced, 330
Transplant, cardiac, OKT3 monoclonal antibody in, 126
Trauma
  blunt chest, myocardial contusion index of suspicion assessment, 133
  metabolic response to injury, 4

U

Ulcers, skin, of elderly surgical patients in critical care units, 321

V

Ventilation
  communicating with ventilator-dependent patients, 115
  pressure controlled inverse ratio, in respiratory failure, 254
  preventing diaphragm fatigue in, 13
Visitation, family, contracting for, 364
